JOBS IN AUTOMOTIVE!

Discover exciting job opportunities at XTRONIC in the automotive, electronics, and software development fields.

We offer project assignments in the area of automated driving and electromobility as well as in the development of infotainment and display systems and comfort electronics. Shape the future of mobility with innovative solutions in thrilling and challenging projects.

At XTRONIC, you'll find the perfect blend of career, passion, and technology.

**X**CELLENT  
WORK FOR PREMIUM CUSTOMERS!

You're putting your full effort into leading automotive manufacturers and Tier1 suppliers. You work on pioneering projects for the future of mobility with companies like Mercedes-Benz, Porsche, Volkswagen and Schaeffler.

The subject areas include systems for automated driving, such as steer-by-wire systems, power electronics for applications in electromobility, and innovative display and control systems like instrument clusters and head-up displays for future vehicle generations.

Welcome to XTRONIC, where excellent work exceeds our customers' expectations every day.

**X**PERTS  
WE WANT YOU!

Together with you, we shape innovations for our customers. We are looking for experts in key areas of automotive electrical/electronic (E/E) and software development. This includes disciplines like requirements engineering, hardware and software architecture, embedded software including AUTOSAR, Automotive SPICE and functional safety, cybersecurity, as well as testing and test automation.

Your expertise is in demand with us, and we offer you the opportunity to engage in the key topics of mobility for tomorrow.

**X**PLORE  
YOUR CAREER OPPORTUNITIES!

We accompany you on your journey and assist you in establishing yourself within our team of experts, so that you can realize your full potential, and it all begins with onboarding. This is designed to ensure your successful integration from the very start.

Later on, our horizontal and vertical career opportunities offer you more than just a job – here, you can actively steer your professional career.

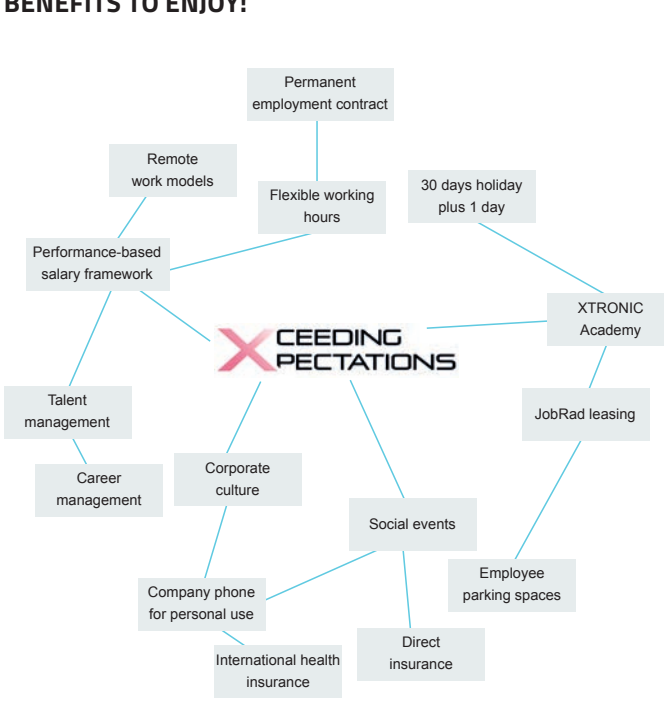

**X**-TEAM  
UNIQUE COMPANY CULTURE!

At our company, open and equal communication takes top priority. We believe in the open exchange of ideas and opinions, regardless of hierarchies. Our feedback culture encourages continuous learning and growth. We value and recognize the contributions of each individual because everyone matters to us.

Welcome to an environment where we collaborate to achieve our goals, and where appreciation and respect are the cornerstones of our unique corporate culture.
